

Preschool (3 – 5 years)

The preschool programs are designed to prepare children for success in learning and social experiences throughout their lives. The preschool day is a time for children to work and play. Children are given the opportunity to work on learning activities, social experiences, and given self-directed time to work in our various learning centers.

Our preschool programs offer a clean, safe and fun environment. Hand-in-Hand has a beautiful playground and outdoor environment which allows children plenty of space to run, explore and socialize with their peers. Our programs offer learning experiences, with adult guidance, in building children's self-esteem, social skills, cognitive abilities, large motor coordination, and overall foundations needed to succeed in school. We encourage family participation and communication; these are some of the ingredients in the recipe for school success.
